3 July 1958

MEMORANDUM TO: Special Assistant to the Director
for Planning and Development

SUBJECT : Fleet Radar Capabilities

1. For some time the Navy has been concerned over the lack of knowledge pertaining to the capabilities and limitations of their fleet radars.

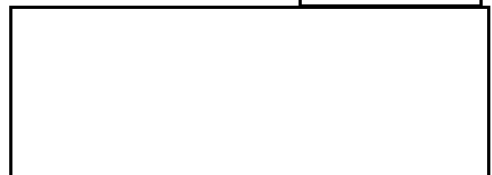

2. Admiral Burke, thru Cmdr. Forsberg and Capt. Webber, has personally requested that Project CHALICE participate in an operational test of the Sixth Fleet radar capabilities.

3. The test would involve one flight over the Sixth Fleet. Details pertaining to the time and place to be discussed by Col. Beerli and Cmdr. Forsberg. Cmdr. Forsberg would be with the Fleet at the time of the flight. The Fleet personnel that would be knowledgeable that the flight was being conducted would have Project clearance.

4. Utilization of the information obtained would be compatible with existing TALENT procedures. In addition to the operational necessity for having the information, Admiral Burke would be able to appropriately orientate his radar R & D program.

5. Pending your concurrence, project will be known as 25X1A

25X1A
